

# Tactical Equipment Decontamination System (T.E.D.S.)

Tactical, Deployable, Closed Loop, Vehicle and Equipment Wash Racks

From the leader in environmental remediation systems comes the **T.E.D.S.** Tactical Equipment Decontamination System. This integrated system provides a full complement of equipment and components for effective vehicle and equipment decontamination and is capable of closed-loop operation or pretreatment for discharge to approved sanitary sewer. These field proven technologies incorporate several major systems and sub-systems, creating an all inclusive method for handling the unique requirements of vehicle and equipment maintenance and decontamination.

- *No permanent construction required*
- *Optional automatic solids management on the wash rack*

- *Low maintenance system components reduce downtime*
- *Available in single lane, dual lane or custom configurations*

Certified to UL-508A Standards

## Standard System Supply

### The Wash Lane

- No permanent construction required
- Low profile, non-skid

### Standard Built In Wash Systems

- 5 GPM @ 3000 PSI hot water pressure washers
- Foaming soap application system
- Water cannon
- All guns and hoses on self winding reels
- Operator control stations integrated into enclosure or mounted at the wash rack
- All pumps auto start/stop with over rides

### Available Options

- Automatic undercarriage wash
- Self-cleaning troughs on rack
- Remote monitoring
- Self contained prime power supply, & MORE!

## Tactical Equipment Enclosure

- Heated, air conditioned
- Aluminum interior walls
- Aluminum diamond tread floors
- Secondary containment sump
- Makeup air and exhaust venting
- Fully plumbed, wired, lighted and air conditioned
- Lockable

## Integrated Recycle System

- Biological treatment process for removing emulsified oils and greases, hydrocarbons and other organics
- 24/7 high volume air injection into bioreactor
- Automatic injection of microbes
- Marine Grade Aluminum Construction
- High pressure multi-media filter remove:
  - Heavy metals & ultra fine solids
- Automatic back wash
- UL 508A Certified

## Ancillary Components and Services

- Full spare and consumable package
- Full engineering support services
- System installation, startup and training
- Complete support available **WORLDWIDE!**

Thank you for allowing ESD to provide a solution to your equipment needs.
